CROWS' NEST ARTISTS PRESENT DELIGHTFUL MUSICAL PROGRAM

Guest artists from the Crows' Nest Pass were accorded a wholehearted ovation at the concert presented by them on Tuesday evening at the Marquis hotel under the sponsorship of the Lethbridge Women's Musical Club. There was a good attendance of music lovers present to enjoy the treat of amateur music.

Adding interest and enjoyment to the concert was a resume given by Mrs. W. E. Campbell of the origin of the dance form of music from its commencement of single reels presenting a motif, though the dance of the 16th century when music received a great stimulus up to the present presentations. She also gave a brief outline of the compositions presented on the program, mentioning the composers and their outstanding characteristics.

The recital opened with a suite of classic dances played by the instrumental quintet including Mr. W. H. Moser, cello; Miss Jean Cruickshank, viola; Misses Catherine and Helen Rose, violinists, and Miss Isabel Westrup, pianist. Here one heard compositions of the various schools of music, including the Spanish, French and German, all being early 17th century composers.

Two splendidly contrasted numbers were Sarabande in D (Bach), played by Miss Jean Cruickshank, viola soloist, and Bohemian Peasant Dance (Lachner), a violin solo by Miss Helen Rose, the former being a slow and stately composition as compared to the sprightly swinging dance number. Both players had a nice range of color and played with ease and fluency.

Good orchestral effects were noted in the numbers of Pavane and Gagliarda (Byrd) and Gavotte (Gluck) given by the instrumental quintet, with alterations in mood most effective.

Two groups of music followed, first those of the older form by Mozart and Bach, the former being a splendid presentation by students of chamber music, while the latter was not only an enjoyable performance but gave evidence of the versatile qualities of one of the trio, Miss Cruickshank, who changed from the viola to a violin. Playing with her were the Misses Catherine and Helen Rose.

In the delightful violin and piano ensemble by Schubert, Miss Cruickshank was heard as pianist and Miss Catherine Rose as violinist. The latter, who played first-violin throughout the evening, at all times showed talent and musicianship.

An outstanding member of the quintet group was a violin duet between Mr. Moser and Miss Cruickshank. This was given with verve and pleasant understanding between the two players.

Two piano solos lent variety to the program, with Miss Jean Cruickshank being heard in Gigue, by Richard Jones. She played with fluency and clear cut rhythm and phrasing, while Miss Isabel Westrup played the First Polonaise, by Chopin. This young player of much promise was the winner of the open piano solo class in the recent Crows' Nest Pass festival competition.

George Kerr, a boy violinist of 15, chose two very brilliant numbers as his offerings, Carabas, by Monti, and Ourenstella, by Casimir. These were of Hungarian and Italian origin and were most enthusiastically received by the audience.

Completing a most interesting evening of music, the quintet played a popular Austrian waltz number by Jean Lenoir and two Old English hornpipes (Ravenscroft).

SCOUTS JAMBOREE TO BE HELD AT CALGARY

A jamboree for Scouts and Guides, in honor of the visit from the Chief Scout and Chief Guide, Lord and Lady Baden-Powell, will be held in Calgary on Monday, April 22nd. Every Guide and Scout of Southern Alberta will hope to attend. The discussion for arrangements will be at a meeting in the Greenhill hotel, Blairmore, Saturday, February 23rd, at 7:30 p.m. We are fortunate in having Mr. E. D. Battman, from Calgary, who is chairman of the special committee for arrangements for Southern Alberta, as a Pass visitor. Mr. Battman has consented to be present Saturday night and will explain all the tentative arrangements and give us help in making our plans. All parents, leaders, members of associations and committee, and any interested in the Scout and Guide work, are urged to attend this meeting and give their support.

Don't forget the Ranger Tea at the home of Mrs. R. P. Burden, Coleman, on Saturday afternoon, February 23, from 3 to 6. This is the first of a series of teas which the Rangers are giving to raise funds for the jamboree in Calgary, April 22nd. Everyone welcome.

SUN LIFE INSURANCE CO.

The annual financial statements of life insurance companies are among the most barometers of general business experience on this continent. Hence, during the past five years when the decline in individual incomes resulted in the purchase of fewer and smaller life insurance policies, the statements in question faithfully reflected that fact. As the depression continued there was a more extensive termination of existing insurance and, at its most acute stages, there was an exceptional increase of borrowings and of cash surrenders. Plainly, this was an impairment, in many instances, of the insured, under the stress of immediate necessity, of prudent provision for the future of himself and his dependents.

The report of the Sun Life Assurance Company of Canada, published in another column, and the remarks of its president, Mr. Arthur B. Wood, at its annual meeting, are gratifying evidence of an improvement of conditions. The report reflects a return to confidence and a marked trend toward recovery in business. Because of the heavy investments of the life insurance companies in business enterprises covering a wide diversification of interests, the healthier conditions of trade indicated in this report make encouraging reading. Increases in new assurances and in repayments of policy loans, decreases in policy terminations and reduced demands for new loans—all these demonstrate that life insurance, which proved such a bulwark of strength during prolonged and trying conditions, is, in turn, keeping full pace with the forces of economic recovery.

The general character of the report is not only satisfactory to the policyholders of the Company but encouraging to the business community at large.

A GREAT SUCCESS?

Publicity has been given the fact that Blairmore's relief delegation to Edmonton succeeded in seeing and speaking to Premier Reid and Hon. Allen. Apart from this fact, nothing serious happened. No doubt Edmonton "gas house" high lights are quite accustomed to receiving delegations.

Baroness Renate Von Natlner and Frau Petita Von Falkenhayn, women spies, were decapitated in the Berlin courtyard on Monday.

Steele and Miss Mildred Sandquist.—Lethbridge Herald.

THE 1935 OLDSMOBILE-SIX

Many new and better features are incorporated in the 1935 Oldsmobile-Six and Eight lines announced today by General Motors Products of Canada, Limited, which are having their premiere showing at dealer establishments today.

Built to conform to the public demand for new features of safety, comfort, performance and economy as evidenced in replies to the 1934 questionnaire conducted by General Motors Customer Research Branch at Oakville, the 1935 Oldsmobile lines introduce as an outstanding development the new all-steel "turret top" roof by Fisher. This not only provides added safety in itself, but lends new strength, rigidity and grace to the already strong and graceful Oldsmobile bodies.

The streamline design of the new Oldsmobile is utilitarian and at the same time individualistic, incorporating with all the advantages of wind resistance reduction enhanced beauty of symmetrical lines.

Other new features are: A complete system of sound-proofing of body, chassis and motor; longer wheelbase and roomier interiors; increased economy of operation by means of improved manifolding and carburetion systems; increased power achieved through an entirely new design of cylinder head which still permits the use of standard fuel; redistribution of weight to give an even smoother ride by placing seat location between the axles; new design of the car front, with narrow and higher radiator grilles, new radiator ornaments, new fenders and restyled louvers; and the retention of the 1934 advancements, principal of which are knuckled wheels and hydraulic brakes.

Mrs. Harold Roy Miles, formerly of Lethbridge, of late residing at Moose Jaw, was killed in a motor accident at Los Angeles. She was the wife of H. R. Miles, former divisional C.P.B. engineer on this division, and with her daughter, Mrs. Neil McQueen, was spending the winter months in California. She was 55 years of age. She is survived by her husband, two sons and one daughter, Harold of Turner Valley, Dorn of Moose Jaw and until recently chemist in the British American Oil Co's refinery at Coultas, and Mrs. McQueen, formerly Miss Florence Barbara.

In the face of the great light being made for relief for the single unemployed, it seems difficult to understand why the town should send two delegates on a mission to Edmonton at a cost that would help the unemployed considerably; and also why the council are seriously considering establishing a swimming pool on a site at present occupied by tenanted residences, which will have to be moved. The moving costs alone would go a long way towards better service. We have open spaces galore, far more isolated and suitable for swimming pool sites, where the pool could be erected, if necessary, at far less cost to the ratepayers.

QUICKEST METHOD TO RELIEVE A COLD

Follow Directions to Ease Pain and Discomfort Almost Instantly

When you have a cold, remember the simple treatment pictured here... prescribed by doctors everywhere to-day as the quick, safe way.

1. Take 2 Aspirin Tablets.

2. Drink full glass of water. Repeat treatment in 2 hours.

3. If throat is sore, crush and stir 3 Aspirin Tablets in a third of a glass of water and gargle. This soothes the throat almost instantly.

Because of Aspirin's quick-dissolving property, Aspirin "takes hold"—almost instantly. Just take Aspirin and drink plenty of water... every 2 to 4 hours the first day—less often afterward... If throat is sore, use the Aspirin gargle. But be sure you get ASPIRIN. It is made in Canada and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin Tablet. Aspirin is the trade mark of the Bayer Company, Limited.

DOES NOT HARM THE HEART

WORLD HAPPENINGS BRIEFLY TOLD

A special committee of 15 members will study a national housing act for Canada. It was announced in the House of Commons by Premier R. B. Bennett.

Five Red army officers reported in Moscow after walking and skiing 4,300 miles across Russia in 74½ days of actual travel. They started from Perchinsk, Siberia.

Provision for the appointment of a board of reference to arbitrate the dismissal of teachers under the Secondary School Act, is provided in legislation before the Saskatchewan legislature.

Regina's community chest organization, under the Saskatchewan Benevolent Societies Act, took place recently with 25 charitable, philanthropic and social service agencies signing as charter members.

Arnold Webster, teacher of history at the Fairview commercial high school, has been chosen Co-operative Commonwealth Federation candidate for Vancouver-Burrard federal constituency.

The ill fate which befell the dirigible Macon, was viewed by Representative Vinson, chairman of the house naval affairs committee, as possibly "the death knell" of the United States navy's experiments in lighter-than-air craft.

Officials of the Dominion experimental farm revealed they have supplied samples of Canadian flax for experiments being conducted in Manchester, England, in an effort to find a suitable substitute for cotton in textile manufacture.

An administration bill which revealed the United States plans to seek reciprocal agreements with Canada and other countries in an effort to end liquor and other forms of smuggling has been made public by the house of representatives ways and means committee.

Exploration and mapping of a part of the extreme southwest corner of Canada's Yukon territory will be the objective this spring of the National Geographic Society's Yukon expedition conducted by Bradford Washburn of Cambridge, Mass., conqueror of Alaska's Mount Crillon. The Canadian government has extended co-operation.

WHAT DOES YOUR HANDWRITING REVEAL?

By LAWRENCE HILBERT (Grapho-Analyst)
(All Rights Reserved)

(Editor's Note: The interest in these articles is increasing every week. See the author's invitation to you following this article.)

One of the most interesting letters I have received in a long time came to hand quite recently. It is from a lady in Saskatoon, and illustrates very neatly how the lack of understanding creates a great deal of trouble not only between men and women, but between parents and their sons and daughters.

This lady writes, in part: "Can you help me to understand my daughter? She is 21 years of age, and is good-looking, has lots of friends of both sexes, but is frequently difficult to get on with at home. I do not seem to be able to 'reach her heart' as I would like the doctor to take much notice of what I tell her, and is often moody and taciturn with me."

This correspondent has sent me a specimen of her daughter's writing, and, briefly, it indicates a rather lovable but somewhat highly-strung nature. She has a disposition that is in constant need of sympathy and affection.

When I turn to the mother's writing, however, it is a rather different story. It shows a great deal of pride, but there is little evidence of any great sympathy there. And there is indication of a disposition to become easily irritated at times.

The trouble in this case lies not so much with the daughter, as with the mother.

I have no doubt that this lady loves her daughter, but she is inclined to be somewhat harsh and unyielding in her views. She makes no attempt to really understand her daughter.

When the girl looks for sympathy and understanding, she gets indifference. The mother's pride prevents her from really seeing her daughter's point of view. The inevitable result is an estrangement where there should be mutual sympathy and understanding. The girl turns to other women who she should, naturally, turn to her mother.

My advice to my correspondent is to realize that people are not all turned out in the same groove. Some are inclined to criticism, others are extremely sensitive to the slightest suggestion of reproach.

If people would only strive to understand others, what a lot of pain and mental anguish would be spared. One of the basic values of Grapho-Analysis is its ability to help people to understand themselves and others.

Lovers quarrel, and separate, often because of an inability to understand the other's side of a question. In a word, because of a lack of understanding. Capable men and women work differently, and half-heartedly at a job they despise, because they cannot understand that their real talents lie in another direction altogether. If they realized this, they would be forcing themselves.

Grapho-Analysis fills this need, and its usefulness is to be seen in the ever-widening circle of people who are using it.

Do you wish to know what your handwriting reveals? A character analysis will tell you your weak points and your strengths, and may show you the path to real opportunity and progress. Send a letter in your own handwriting, along with specimens of your friends, and state birthdate in each case. Enclose 10¢ stamp for postage, and send money order or check for \$1.00. All letters are confidential, and replies will be forwarded as quickly as possible, but some delay is unavoidable, owing to the large number of letters arriving.

TELLS EXPERIENCE BEFORE A NOTARY

Mrs. Albert Aubry, 1601 Main Street, N. W., Montreal, relates in a sworn statement how Fruit-A-lives bettered her health. She now enjoys life after years of poor health and, as you may be sure of it, Mrs. Aubry tells of her experience in a statement made under oath. She says, "I was troubled for years with dizzy headaches. My bowels did not function regularly. I had no appetite. I had no sleep. It was difficult for me to do my work. I tried a great many medicines but found most of them too violent. Finally I started taking Fruit-A-lives. In a very short time my health began to improve. I now enjoy life much more than before. I learned about Fruit-A-lives from Mrs. Aubry's report. Write for a FREE A-LIVES-25c and 50c EVERYWHERE.

Chinese Finds Quaker Spider - A spider with a human face has been discovered in Chumatin, Honan. Its body is small, but its head is abnormally large. The face is dead white, with black eyebrows and a black nose. While it is said to be horrible in its appearance; its feet are dark brown. A well-to-do Chinese found the creature in his house. He has sent it to the people's educational institution.

The war between China and Tibet has now lasted for fifty years, and the recent series of battles, in which the Tibetans were victorious, is believed to have been arranged to celebrate the Jubilee.

HE FELT MISERABLE AFTER MEALS

Acute Indigestion Relieved by Kruschen

The treatment which put this man right must surely be worth trying in every case of indigestion. Read what he says—

"Two years ago I suffered very much from indigestion, loss of appetite, and a most severe pain in my back. Food rotted in my stomach. I felt most miserable after meals, and had no desire or appetite for them. A friend advised me to try Kruschen Salts. I did so, and I am most happy to testify that after a short time I felt the greatest relief. I continued taking Kruschen till I felt myself quite better and a new man. I feel the greatest relief. I did twenty years ago."—W. B. H.

What Kruschen did for him it will do for everybody else who suffers from indigestion as he did. The fact is that "the little daily dose" of Kruschen first stimulates the flow of gastric juices to aid digestion, and then ensures a complete, regular and unflinching elimination of all waste matter every day.

BECOMING BLOUSE THAT'S DIFFERENT LOOKING WITH DROPPING SHOULDER YOKES—TIED

By Ellen Worth

A smart blouse can add such a gay dash of brilliancy to your winter wardrobe. And incidentally, it creates a costume.

This youthful model you'll find especially simple to fashion. The sleeves are easily sewed to the drop shoulders. You can cut it out in the morning and wear it the same day. It's inexpensive, too. For the 10 years size, 2½ yards of 38-inch material is sufficient to make it as sketched.

Silk or satin crepe are particularly nice suggestions for this blouse, but plain striped or plain taffeta, wool crepe, wool jersey, many rayon novelties may also be used.

Style No. 901 is designed for sizes 14, 16, 18 years, 36, 38 and 40-inches bust.

Size 16 requires 2½ yards of 38-inch material. Patterns 20c each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

You have a very smart wardrobe at little expense of time and effort. Write for attractive Book Fashions (price 20 cents) is just bulging with ideas that you can turn into cloak and gown clothes. Send for your copy to-day.

"How to Make Better Dresses" booklet, a helpful guide to sewing, is obtainable for 2c. Whether you are a beginner or quite adept with the needle, we think it would pay you to obtain a copy.

Damage From Motor Boats

Causes Waves Which Are Menacing Buildings In Venice

Fears that the appearance of motor boats in the canals of Venice, Italy, would ruin the buildings, have been realized. Venice is built on piles, and a committee of architects has found that the pounding of the waves made by the "put-put" boats has weakened the piling. At least \$500,000 will be required to repair the damage already done, and immediate action is necessary to save many beautiful buildings from collapse.

English experiments show that insects are carried by gales.

SUNDAY SCHOOL LESSON

FEBRUARY 24

PETER HEALS A LAME MAN

Golden Text: "But Peter said, Silver and gold have I none; but what I have, that give I thee." Acts 3:6. Lesson: Acts 3:1 to 4:31. Devotional Reading: Isaiah 35:1-6.

Explanations And Comments

Peter Heals a Lame Man, 3:1-10. Nine in the morning and three in the afternoon were the hours for sacrifice and prayer. It was the ninth hour, or three in the afternoon, when Peter and John went to the temple to pray.

At the temple door which was called Beautiful they saw a man sitting and begging alms of all who entered the temple. This man was lame from birth, and was daily carried to that spot to beg. He must have been well known to all in Jerusalem, "he was part of the city landscape, the people knew him, they knew the carved columns of the temple doorway."

The man was not expecting alms from every worshiper, and probably glanced indifferently at Peter and John. To rivet his attention upon them and arouse his expectations, Peter said to him, "Look on us." The beggar gave heed to them. Then said Peter, "Silver and gold have I none."

Instead of silver and gold the man needed strong limbs that he might earn his own living. True charity helps men to help themselves. Peter had no money, but he had a look of sympathy a word of hope, and he quickly added, "But what I have, that give I thee." You recall the story told by Turgenev of the Russian who put his hands in his pockets and then said to the beggar before him, "I am sorry, brother; I have nothing with me, brother." And the beggar, touched by the words "brother," said, "That too was a gift, brother."

In the name [by the power] of Jesus of Nazareth, the man was healed. The man by the right hand and raised him up. That was the secret of the miracle. It was human sympathy and human helpfulness co-operating with divine grace. The man then was crippled and lame through Peter's strong right arm.

Immediately the man's feet and ankle-bones received strength. The Greek words used here for ankle-bones are said to be those which a doctor uses in describing a patient, and are one of the minute points that Luke the physician was so careful to record. The man leaped up and began to walk, and entered the temple with them, all the time singing and praising God.

Migration Of Birds

Canada Goose From Jack Miner Sanctuary, Winnipeg, To Winnipeg Lake. Spring, Killed In North Carolina.

Each year Jack Miner tries a new experiment studying the migration of birds and their knowledge of travel. Last spring, with the co-operation of the Manitoba Government and the Department of Interior, Ottawa, with the aid of the Hamilton Bird Society, and the Winnipeg Free Press bearing the expense of crates and express, he caught twenty-five Canada geese and shipped them via fast express to Winnipeg, where they were put in trucks to be taken to Grand Lake, in that vicinity, where they were released with a flock of several thousand western Canada geese.

About one month later, one of these tagged geese was reported killed by a native in Northern Manitoba, near the shores of Hudson Bay, but nothing more was heard from them until December 20th, when one was shot at Grand Lake, in its usual winter home. In other words, it left the western geese and went to the north, along the same old sailing seaboard, to join its parents, sisters, and brothers, where it has always spent its winters; because the geese that visit the Jack Miner bird sanctuary at Kingsville, Ontario, Canada, located 25 miles south-east of Detroit, Mich., in the spring, mostly winter along the Atlantic coast, chiefly around Carrick Sound.

Nearly every year Jack Miner has geese killed in that vicinity, at the same town address as this bird was shot.

The report of this goose going back to its same winter quarters was a surprise to Jack Miner, because he believed that when they travelled nearly 1,500 miles in an express car to the north, with western geese, that they would stay with the western flight, and perhaps be shot west of the Mississippi.

Commenting further on it, Jack Miner said this incident is something for scientists to carefully study in order to fathom the knowledge of this goose in spending the summer in the Arctic region after being released in the Northwest, and then finding its way back to its usual winter quarters in North Carolina.

Now that it has been proven that these geese go back to their usual winter home, there is every possibility that some will be recaptured at the Miner bird sanctuary this coming spring.

Out of 1,700 of Miner's banded geese killed during the last 12 years, over 99 per cent. of the number were found in the Mississippi. What makes the experiment doubly interesting is the fact that this goose having been shipped to the far Western country, now lands back and is shot in its old winter home. This gives us some reason to think about, as to the knowledge possessed by these birds in regard to travel or migration.

Ontario Woodchopper Finds Bear And Three Gallons Of Honey

In Pine Tree. When Harry Burton chopped down a pine tree at San Claire, Ont., he got not only four cords of wood but a hibernating black bear and three gallons of wild honey. There also was a bees' nest there if he wanted it.

As Mr. Burton's axe bit into the pine, he noticed steam coming from the wood. Cutting deeper he uncovered a bear's den—it was the animal's breath he thought was steam. With a grovel the bear emerged and was killed with two blows from the woodchopper's axe.

Continuing his chopping, Mr. Burton found a beehive full of fragrant wild honey. Apparently the bear had made plans for he would not come out of hibernation lean.

Eau Claire is about 35 miles east of North Bay.

A New Hobby

Mrs. Fay Littlejohn of Kansas City, Missouri, has a collection of 2,700 paper match folders, no two of which are alike. They are from hotels, restaurants, cigar stores and other business places in 450 cities of the United States and from Matamoros, Tia Juana and Juarez.

Boy—"What's the dignity, daddy?"

Father—"Dignity, my son, is what you think you have until the boss says: 'What's the meaning of this?'"

GEORGE B. RODNEY
Author of "The Colorado Trail",
"The Canyon Trail", Etc.

SYNOPSIS

"You've fallen heir to a half-share in plenty of trouble," the lawyer told Gerald Keene. "The Broken Spur has been systematically looting the ranch, and old Joe Carr, your partner, is drinking himself into ruin."

Dad Kane, desert rat and luckless prospector till now returns to tell Dustin and Spike Goddard, who had grumbled him, of his discovery of a rich gold mine, and shows samples of the ore.

Dustin unexpectedly comes along while Stone and Edith are riding fence, and seeing them, stops and talks to Edith. He mentions their dispute could be settled by marrying him, and Edith refuses his proposal with remarks that make Dustin furious. He insults Stone, who promptly throws him into a pool of water.

Stone tells Carr, his foreman, about his meeting with Dustin. Stone and Carr go to Seco to send a telegram to Gerald Keene. While at Seco an attempt is made to kill Stone, who proves more than a match for his enemies.

Dustin learns that Gerald Keene has been sent for, and also that Duro Stone has seen the Broken Spur men rustling Carr's cattle. He sets out with Dad Kane to learn the location of his gold discovery. Dad Kane shows Dustin the mine.

They go back to camp, and Dustin shoots Kane. He fixes the shooting on Peyotl Gregg, a drug addict, who, stupefied by the narcotic he had taken, did not know whether he was guilty or not. They bury Kane and then return to the Broken Spur ranch. Meanwhile at the Hour Glass, Carr, Carr and Stone speculate as to the meaning of entries in the notebook belonging to Dase Kane that Stone had found. Stone thinks of a possible solution, and, accompanied by Edith Carr, rides out to Red Water to test

out his theory, which proves correct, and they find the rich gold deposit mentioned in the prospector's notebook. As they return to the ranch, they meet Dustin leaving the house, and he deliberately tries to ride down Stone.

(Now Go On With The Story)

CHAPTER XII

Duro Stone summed up affairs fairly accurately as he headed for Seco. That summary included Joe Carr, Frank Crews, the Hour-glass, Dustin, Kane (whom he knew not) and Edith! He grinned a little as he realized that she was not to be judged by any ordinary standards. Yet . . .

"The dirty hound. . . . He wants to marry her. . . ."

"That appealed to his sense of humor and he chuckled. "To be sensible. . . . If I can. . . . How can I blame another man for wanting to do what I want to do myself? Dog-gone it! It makes me tired. I've spread my ropes from Canada to Mexico and now I've come to the end of the trail. . . ."

Suddenly he knew that, if Edith Carr was at the end of that trail to welcome him, he wanted no other trail.

"All the same that man Dustin's a dirty hound," he muttered. "Now to try to find out what I want. . . . Here's Seco. . . ."

Seco was an ordinary cow-town with a courthouse in the middle of a square from which the rest of the town radiated. He parked in front of a small frame building that bore the sign:

SECO COURIER

Evan Jameson, Editor and Prop. "If any information is to be had it ought to be in a newspaper office," he muttered. "If he hasn't got an encyclopedia I don't know who will have one."

A slouching man rose from a half-recumbent position across a desk and eyed him as he entered. Stone grinned affably and thrust out a hand.

"My name's Stone," he said pleasantly. "I work for Carr at the Hour-glass. Are you Mr. Jameson by any chance?"

"Not by chance, by design and for my sins I think," said Jameson with a sour grin. "What can I do for you?"

"Excuse me, you got an encyclopedia in the office and if so, will you let me consult it?"

"Over on the shelf yonder," said Jameson. "Help yourself."

He watched curiously as Stone took down volume after volume. When he replaced the last with a sigh of disappointment, Jameson became frankly curious.

"Can't you find it?" he asked. "It's not in the book. . . ."

Stone perched on the desk and rolled a cigarette. "Maybe you can help me, Mr. Jameson. Have you lived long in this part of the country?"

Jameson went to the dusty window and pointed to the great bulk of Myrant Peak that thrust above the skyline.

"When I first came here," he said, "that peak was just a hole in the ground. It's grown up since then. I haven't. You say your name's Stone? Are you the man who slapped the drink of whiskey in Corse's eyes in the Silver Dollar?"

"I reckon I did," said Stone, grinning. "Sometimes I'm mighty careless where I throw my hot-lips. Why?"

"It was you, too, who had the quarrel with Sam Dustin and who dumped him into Soda Springs, hey?"

Stone nodded. He wondered how and where Jameson had learned of that. Jameson enlightened him.

"My wife heard it. . . . from a friend and she told me. I haven't said a word about it. I thought it best. Maybe I can help you about that item you want in the encyclopedia," said Jameson shortly.

"First of all. . . . Do you know an old desert-rat named Kane?"

"Who? Dad Kane? Old man Shammie-skin Kane? They call him that because he always wears a shirt made of chamolskin. He says he can use it with his mercury to try out his gold ore. . . . when he finds it. Of course I know him."

"Is he straight?"

"Absolutely. That is, he's perfectly honest except in minor matters. He's queer though. Tell me what these questions mean."

Stone thrust a hand deep into his coat-pocket and kept it there while he studied Jameson. He liked what he saw and his face broke into a pleasant smile.

"I've been on the Hour-glass payroll for four months now," he said irrelevantly.

"It's a good outfit," said Jameson. "I'm sorry they've had so much hard luck. Now take Joe Carr. He's a fine

old fellow but he has dropped behind in the race for money and he will never catch up. He just don't know what it's all about. He's got a good outfit, too, but a good body can't help if the head is gone. Of course he's got a good man in Frank Crews. They don't make many men like Crews."

"And Edith. . . ."

"Edith's grim face instantly lit with a light that there was no mistake. . . ."

"Yeah," said Jameson quietly. "Edith. . . . What about her?"

"Crews told me that, while Edith was out riding with me, that man Dustin came over to the Hour-glass. He saw old man Carr and told him that he wants to marry Edith."

"Edith. . . ."

Evan Jameson, the lanky editor of the moribund paper that certainly could not support him, threw himself across his desk and grabbed at Stone's arm.

"Tell me that again," he said earnestly. "See if I hear'n' right." Stone told him curtly and every word sank in. Jameson nodded once or twice and seated himself on the edge of the desk.

"You listen to me," he said quietly. "You've been some months at the Hour-glass. You must know how things are out there. . . ."

Stone nodded. "I thought so. I've heard a lot of you. . . . From . . . Oh, from some people and what I've heard I like. . . . Wait. . . ."

He stopped Stone's attempted speech. "I'm a married man, Stone. I've got the finest wife in the world and we've got two kids. One's a boy named for me. The other's a girl, Mabel; named for her mother. Some day when you have kids of your own, you'll understand what I'm trying to tell you. . . ."

Last year the boy was taken mighty sick while I was away. Edith Carr only knew us fairly well but she stopped in from time to time to see if she could help Mabel. I was over at Wilton longer

than I expected and I couldn't get back. The third day Jim Young came in from Seco and told me the boy was down with a bad case of diphtheria. . . . You may guess what that means in a place like Seco. Our only doctor then was a horse-doctor and he was generally full. I got back as soon as I could make it. . . . It had been a cold night and Edith Carr, hear'n' how sick the boy was, spent it with Mabel. They spent that night tryin' to cook the poison out of him. . . . You know how it is I reckon. Know anything about diphtheria?"

Stone shook his head. "It stops up all the tubes and chokes the person to death. You've got to be right on the job. . . . Mabel was played out. . . . She was sick, too. . . . The boy was taken sick in the night and Mabel. . . . Well, she says frankly that she lost her nerve and didn't know what to do. . . ."

She stood there watchin' the boy choke to death for her eyes. . . . That's when Edith Carr came in! She saw what was takin' place. . . . She saw Mabel couldn't help herself. . . . She pushed Mabel out of the room, pulled the rubber tube off a hot-water bottle and stuck it down the kid's throat. . . . Then. . . . By God, Stone. . . . She sucked it clear! Do you get that? She gave him back his life. . . . Any need to ask what we think of Edith Carr?"

There was no need. After one brief glance at Jameson, Stone knew that he could "go the limit."

"I'll tell you why I want to find old Man Kane," he said.

He perched on the desk and told Jameson of his first row with Dustin. He told him of the fight with Corse and Gray in the hills above the ranch. He told how he found old Kane's lost notebook and of the trip that he took with Edith. Finally he laid on the desk the pieces of rock from the mine.

"I can get Buxton right here in town to assay 'em," said Jameson. "He'll not net talk if I tell him not to. . . . Go on. . . ."

"Well. . . . we were riding home when Dustin, who had been at the Hour-glass, came peltin' down the trail and tried to ride me down the gulpe de caballo. His horse must have slipped or something for Dustin was upset. Jameson's eyes gleamed at that. While he was lyin' there unconscious, I went through his pockets, and found a note from Joe Carr to Pegram of the Seco-bank for eleven thousand dollars. Pegram had sold it to Dustin. Then, when I got to the Hour-glass, Crews told me that Dustin had come there to tell Carr that he wants to marry Edith. . . ."

"Well. . . .?" Jameson's voice took a cool edge. "Go on. . . ."

"Then I took the car and came here. . . ."

"To look for something in an encyclopedia," said Jameson. "Stone grinned. "You stick to the point, don't you? Look here. . . . And he laid on the littered table an envelope and the cigarette that he had taken from Dustin's pocket. He emptied the envelope on the desk and angled the contents—three or four stubs of burned cigarettes and a little pile of brown dust. Then he picked up the whole cigarette that he had taken from Dustin. . . ."

"These are not tobacco," he said. "I found the stubs in the camp where Kane must have gone with Dustin. . . . Or else Dustin was there alone. I don't know. I want to find Kane. This stuff may be marabuanas. . . . I don't know it. I know it is not tobacco in any form. Do you know it? I was lookin' for marabuanas in the book."

Jameson crumbled some of the stuff between thumb and forefinger; made a face and spat suddenly. (To Be Continued)

Little Helps For This Week

"To be spiritually minded is life and peace." Romans 8:6.

Stilled now be every anxious care? See God's great goodness everywhere. Leave all to Him in perfect rest. He will do all things for the best.

We should all endeavor for a calmer spirit, that we may the better serve God in praying to Him and praising Him; and serve one another in love, that we may be fitted to do and receive good; that we may make our passage to heaven more easy and cheerful. So much as we are quiet and cheerful on good ground, so much we live and are, as it were, in heaven.

Possess yourself as much as you possibly can in peace; not by effort, but by letting all things fall to the ground which trouble or excite you. This is no work, but just setting down a fluid to settle that has become turbid through agitation.

ARE YOU RUNDOWN, AILING?

Mrs. John Blackman of Victoria B.C., Stratford, Ontario, writes: "I had weak and ailing child, had an ailment, poor digestion and was constipated. After taking Dr. Pierce's Golden Medical Discovery the stomach trouble and constipation were corrected and I had no more dizziness or fainting spells. Dr. Pierce's Clinic, Buffalo, N.Y., for free medical advice."

Trans-Canada Highway

Road From Great Lakes To Winnipeg Expected To Be Open This Year. Ontario Government highway department officials believe they can give assurance that in the month of May there will be a clear passage from the head of the Great Lakes to Kenora, Ont. and Winnipeg, containing wonderful stretches of good road in excellent shape, but naturally they could not guarantee anything that might occur due to unexpected weather conditions. To the normal tourist who was prepared to take a little trouble here and there, however, the road would be in good condition.

Guard against Rickets with Cod Liver Oil

PLUS
ADDED DIGESTIBILITY

All babies need the anti-rachitic value of Vitamin A and D, found in pure cod liver oil. Scott's Emulsion is rich in these vitamins, PLUS the easy digestibility that results from Emulsion. PLUS the body-building aid of hypophosphates of lime and soda. Pleasant to take, Scott's Emulsion is tremendously more effective.

JOSH BILLINGS ENGLISHED

Josh Billings was a serious moralist, almost a preacher, with a gift for epigrammatic expression. It probably has never been surpassed, but because of the grotesque orthographic form in which it was presented, may never have been rightly appreciated.

Spelt properly, the sayings of Josh Billings can hold their own for good sense, wit, and forcible phrasing with any of those of the French masters. When it comes to humor, the others are nowhere.

A few of his sayings done into ordinary English illustrate, and prove, this point:

Marrying for love may be a little risky, but it is so honest that God cannot help but smile at it.

Most men would rather say a clever thing than do a good one.

Truth is the only thing I know that cannot be improved upon.

Slander is played on a horn of brass, but truth steals forth like the dying song of a lute.

About as good-a way as any to be happy is to pity those who are below us and forget that there is anybody above us.

Epithets. Here lies John Ferguson, Esq., who died worth half a million—less the Kingdom of Heaven.

Avarice eats up all the good things in a man and then feeds on his vices. If you have a good wife keep perfectly still and thank God every living minute for it.

Honesty is the best policy. But don't take my word for it; try it. This American philosopher's orthography, in contrast, is also illustrated:

Give the Devil his due, but be very keeferful there ain't much due him.

Marrying a woman for her munny is vera much like setting a rat trap & baiting it with yure own finger.

A virtuous and economical and knowing and butful woman is—pl that can be said on the subject.

Man was created a little lower than the angel & has bin gittin a little lower ever since.

God save the phools and don't let them run out, for if it wasn't for them wise men couldn't get a livin.

As a general thing, when a woman ware the britches she has a good rite tew them.

There is one time when awl men are comparatly pure & that is when they are in luv.

Chastity is like an isikel; if it once melts that is the last ov it.

"Josh" was Henry Wheeler Shaw, a New Englander, who spent a good deal of his life in the West. As an auctioneer in New York state, he achieved his subsequent fame, by varying that occupation with his writings and platform appearances. He published a number of books and died in 1885.—E. V. Lucas in London Sunday Times.

NOT OVER YET

Although the "war to end war" was concluded sixteen years ago, the great nations which engaged in that struggle are today spending more on armaments than they did before the war. Great Britain has nearly doubled its military and naval budget since 1911, the United States is spending about three times as much, and France, Italy and Japan have more than quadrupled their expenditures. The figures throw a sorry light on post-war civilization.—Goderich Smith.

IF SOMEONE BREAKS THROUGH THE ICE

A Few Rescue Hints as Taught the Boy Scouts

With the approach of spring comes the annual toll of drownings through breaking ice. The February "Scout Leader" reminds Scouts of ice rescue technique in an article which might well have wider circulation. It may be noted that every winter and spring numbers of such rescues are made by Boy Scouts.

Says the "Scout Leader": In the event of an ice accident the most important things are a cool head and quick action. Needless risks are to be avoided. Plunging into the water with him won't help the victim. Call at once that help is coming and warn him not to get excited and struggle, but merely to hang on to the ice.

When compelled to cross dangerous ice to reach the victim, secure a ladder or plank and push it ahead of you. If such things are not at hand, crawl flat, holding a pole or staff, until you can reach him and assist him to solid ice. If using a plank or ladder, push it across the break in the ice and if necessary crawl along it until you can grasp and help the person upon a rope.

If a rope is available, tie one end securely to a hockey stick or short pole, and shoot it across the ice to the person in the water. Direct him to place the stick across the ice in front of him, rest his elbows upon it, and raise himself as you pull. If the ice breaks, repeat the operation.

If you have a rope only, endeavor to toss it to him. If this is impossible, or if he is too weak to assist himself, tie it about your body, have someone hold the end, then crawl flat over the ice, distributing your weight as much as possible, until able to grasp the hand of the person in the water. Hold firmly. Ask him on the other end to pull, and direct the sufferer to endeavor to roll sideways upon the ice.

If neither rope, plank, nor stick is at hand, use the "human chain"—each boy grasping one ankle of the boy ahead, and all shifting forward cautiously, until the leader is able to reach the hand of the unfortunate.

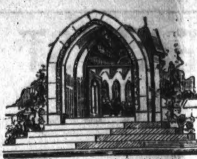

In practically all cases, the proper way to get out of a hole in the ice, whether being helped out or not, is to break the ice away until solid ice is reached, rest the arms and elbows upon it flat, get one foot out, then carefully raise and roll out full length sideways.

In unconscious cases the victim would be treated for apparent drowning and shock. When able to walk, he should be kept running until he reaches some place where his clothes can be removed; he would be put to bed, given hot drinks, hot water bottles, and wrapped warmly in wool blankets.

MILK DELIVERED ON HOOF

Montreal, Que.—In the island of Malta, an important naval base of Britain in the Mediterranean, milk is delivered on the hoof, being purveyed direct to the consumer from the herds of goats which are driven from house to house. The Maltese people prefer goat's milk to that supplied by cows, although there are two small dairies supplying sterilized or pasteurized cow's milk. This gives rise to a large importation of condensed milk for use by the European population and in this trade Canada has a share. Other Canadian products which find their way to Malta include bacon, sold to the navy, army and air force canteens; flax, fish, cranberries, dried, salted and fresh, and apples. There appears to be a good opening for Canadian cheddar cheese.

John Puckering, a 58-year-old Worcester-shire gardener, claims to have been dead and in heaven for five minutes, where he met his wife who had been dead and in heaven for fifteen years. He gives no reason for coming back. Probably he didn't like the climate.

BLAIRMORE UNITED CHURCH
Rev. Albert E. Larkie, Minister

"Serve the Church that the Church May Serve You."

Services Sunday, February 24th, the minister in charge.
11 a.m.—SENIOR SCHOOL.
2 p.m.—JUNIOR SCHOOL.
7.30 p.m.—PUBLIC WORSHIP.

ST. LUKE'S CHURCH NOTES
Rev. A. S. Partington, B.A., Rector

Services Sunday, February 24th:
Sunday School at 10 a.m.
Evening service at 7.30 o'clock.
The Bible class will meet every Thursday in the church at 7.30 p.m. Everyone welcome.

HILLCREST UNITED CHURCH
Rev. John Wood, Minister.

"Getting down to bed-rock": a series of four sermons on "Religion," "God," "Jesus," "The Bible."

On Sunday, February 24th, at 7.30 p.m., the topic will be "Religion." How did this religion business begin? Men have invented religions. Did man invent religion? Our social fabric is not religious. Our social fabric is a failure. Are these two facts vitally connected?

Bruno Richard Hauptmann, convicted and sentenced to the electric chair for the murder of the Lindbergh baby, has been granted a respite of several months, to permit of an appeal being considered by the state's highest tribunal. His application for appeal to the supreme court was denied. The appeal will probably be heard during May.

A. B. King, manager of the Royal Bank of Canada at Okotoks for several years, has been transferred to the management of the Fernie branch. Mr. King was former president of the Alberta Hockey Association and is a life member of the executive. He has been in Okotoks for seventeen years.

At a meeting held on Sunday afternoon last, the Blairmore Unit of the Mine Workers' Union of Canada decided to move into new quarters, and signed a lease for the ground floor of the Oliva building at the corner of Eighth Avenue and Victoria Street. The new premises are better suited for their purposes.

A memorial service for the late Alex. Cameron, who passed away at Coleman, was held at Creston on Sunday morning last. The service was in charge of Rev. Andrew Walker, a former Presbyterian pastor at Macleod and personal friend of Mr. Cameron's. Members of Creston Masonic lodge attended.

Two important undertakings are planned by the Blairmore town council, both of which are absolutely subject to the ratification of two-thirds of the proprietary electors of the town, namely the hospital and swimming pool. Under section 982 of the Town and Village Act, a by-law must be submitted to the electors.

A new silk fishing line is made in ten colors, five yards to a color. If that big fish pulls until the yellow part of the cord is reached, you know that more than 95 yards are out. If he strikes when the dark part passes over your reel, you know that between 20 and 25 yards are out.—EN.

A very pleasant bank holiday was staged at Pincher Creek recently, when a number of citizens, headed by Jack Kelly and Myron Allison, entered the premises of the Canadian Bank of Commerce and tendered a surprise to Mr. George C. Wilton, who has been manager there since 1925, but who will be leaving for other fields of labor, on account of the Pincher Creek branch being closed. Mr. Wilton was presented with a beautifully engraved pump gun.

Sun Life Assurance Company of Canada

Sixty-fourth Annual Report—1934

ASSURANCES IN FORCE, December 31, 1934 . . . \$2,748,725,403

This large amount, the accumulating estates of nearly a million Sun Life policyholders, will become payable to them or their dependents during this generation—a stabilizing factor of great social and economic value.

NEW ASSURANCES PAID FOR . . . 236,215,901

INCOME . . . 159,251,028
DISBURSEMENTS . . . 115,661,302
EXCESS OF INCOME OVER DISBURSEMENTS . . . 43,589,726

PAYMENTS TO POLICYHOLDERS AND BENEFICIARIES:

During the year 1934 . . . 88,160,206
Since Organization . . . 888,330,239

ASSETS . . . 665,378,716

Bonds; government, municipal, public utility and others; stocks, preferred and common; loans on mortgages; real estate; loans on Company policies; cash in banks, and other assets.

LIABILITIES . . . 651,115,551

Almost nine-tenths of this sum represents the policy reserve—the amount set aside to guarantee all policy payments as they become due.

PAID-UP CAPITAL (\$2,000,000) and balance at credit of shareholders' account . . . \$3,299,728

RESERVE for depreciation in mortgages and real estate . . . 5,012,619

SURPLUS . . . 5,950,818

\$14,263,165

The valuation of bonds and stocks has been made in accordance with the basis authorized by the Insurance Departments of the Dominion of Canada, and in conformity with the bases authorized by the Departments of Insurance of the various Provinces of Canada, and the National Convention of Insurance Commissioners of the United States. Policy liabilities have been valued by the full net level premium method, a standard more exacting than is required under the provisions of the Dominion Insurance Act.

Sun Life Assurance Company of Canada

This week, we chronicle the passing of two more old-timers of this district—Richard Coates, of Cowley, and Charles Fuchs, of Vancouver, former-ly of Hillcrest. Mr. Richard Coates, who passed away at Cowley this week, was a native of Worthington, Cumberland, England. Mrs. Coates was formerly Miss Elizabeth Day, of Sheffield.

for 1935
"THE CAR THAT HAS EVERYTHING"

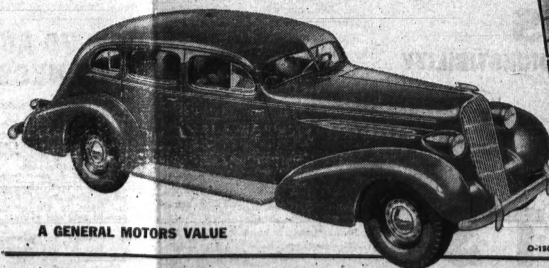

A 90 HORSEPOWER SIX...A 100 HORSEPOWER STRAIGHT EIGHT

FOR 1935, Oldsmobile offers a low-priced, 90-horsepower Six, and a 100-horsepower Straight Eight... more beautiful than any previous models... more brilliant in performance... more lavish in improvements.

Establishing the value measure for 1935, Oldsmobile has solid steel "Turret-Top" Bodies by Fisher. Complete insulation against sound has been engineered into these new cars. Knee-Action, proved and now improved, combines with the Ride Stabilizer to provide superior riding ease. Many other advancements...

Hydraulic Brakes—Enclosed Tire and Luggage Compartment—Centre Control Steering—All-Silent Syncro-Mesh Transmission—Fisher No-Draft Ventilation—and Increased Economy... demonstrate in a practical way why Oldsmobile is known as "The Car That Has Everything."

Come to the showrooms and see the new models. Look once more to Oldsmobile as exemplifying the advanced trend in motor cars. Check carefully what you pay against what you get... for Oldsmobile has scored again!

From Our Own Correspondents

HILLCREST HAPPENINGS

Mrs. Peggy Richards left on Thursday for Victoria, B.C., where she enters the Royal Jubilee hospital as nurse on probation.

The Bellevue high school hockey team defeated the local boys to the tune of 5-4.

Mrs. G. E. Cruickshank left on Thursday on a visit to Edmonton.

The local girls' basketball team defeated the Blairmore "Macs" 22-14 in a game here on Thursday. The junior boys the same evening defeated Pincher Creek juniors 17 to 14.

Mrs. Walter Rose returned from her visit to Calgary and Edmonton on Sunday.

The stork visited the home of Mr. and Mrs. S. Taber on Thursday, leaving them a baby girl.

The Valentine dance, sponsored by the Football Club and held on Friday night, was a great success. Music was supplied by the Rhythm Aces.

Mrs. W. Adam and daughters Mary and Margaret were Lethbridge visitors over the week end.

Mrs. J. Penn entertained her friends at a whist drive at her home on Thursday night. The prizes for whist were won by Mrs. W. Fisher, Mrs. H. Westrup and Mrs. A. Petrie.

Charlie Fuchs passed away at his home in Vancouver last week. He was a former proprietor of the Hillcrest hotel, and is survived by his wife and two daughters. Mrs. Joe McMullen, formerly of Hillcrest, is a daughter.

Mrs. H. Instone and Freda were visitors to Lethbridge last week.

The local junior boys' basketball team, in their last league game, defeated the Blairmore Columbus Club juniors by a 22 to 14 score, placing them at the head of the Crow's Nest Pass league.

Mr. and Mrs. W. H. Moser accompanied by Jean Cruickshank and George Kerr, motored to Lethbridge on Tuesday, where they rendered a programme of dance music under the auspices of the Women's Musical Club in the Marquis hotel. Dr. and Mrs. G. Blair Rose, accompanied by Misses Helen and Catherine Rose and Isabel Westrup, were also present and took part.

"Father," said little Eric, "what is a diplomat?"
"A diplomat," replied the father, "is a man who remembers a woman's birthday, but forgets her age."

COWLEY HAPPENINGS

A lecture on mixed farming was given in the Masonic hall on Monday evening by Roy E. Smith, manager of the International demonstration farm at Gull Lake, Saskatchewan, assisted by Claud Flood, field man for the International Harvester Company, Lethbridge. Opening his address in a clear and decisive manner, Mr. Smith outlined the romance of the reaper from sickle to combine, demonstrating its progress by motion pictures as he spoke on the evolution of harvesting of field crops. He stressed the proper method of feeding and caring for dairy cattle, hogs and poultry. He talked on the eradication of weeds and the importance of crop rotation and on rejuvenating the soil by growing sweet clover. Another very interesting feature in his lecture was outlining the plan of the demonstration farm at Gull Lake. At the close of the meeting, agricultural literature was distributed. A goodly number attended the lecture, including quite a turnout of the Doukhobor community, as well as high school pupils, all of whom benefited by being present.

The Lundbreck Women's Institute held a very successful dance in the Lundbreck community hall on Friday night last.

Edgar Cowin and Gerald Bradshaw won the two turkeys drawn for at the gents' card party on Thursday evening.

The annual ratepayers' meeting of Livingstone Municipal District 70 was held in Cowley on Saturday afternoon. There was a good attendance. The chair was occupied by W. Potter, returning officer. The financial statement showed the district to be in a healthy condition, a great improvement over 1933. The council is to be congratulated on their careful administration, resulting in a balanced budget and a good surplus. Some complaint was heard of snow-blocked roads in December and January, resulting in a resolution, calling on the council to enforce the worst places. Councillors Johnson, Snyder and Lockhart were re-elected by acclamation in Divisions one, two and three, respectively.

Mrs. Ralph Easterbrook, of Calgary, is paying a visit of a few days to her mother, Mrs. Ed. Cowin. Mrs. Easterbrook will take her mother back to Calgary for medical treatment.

A Valentine tea was held on Thurs-

day afternoon, under the auspices of the Ladies' Aid of the United church. Mrs. Morrison kindly lending her home for the occasion. The tea room was tastefully decorated with red crepe paper and valentines, artfully arranged, while the tea tables bore bouquets of carnations and tulips. The prize for the guessing contest was won by Miss Jean Morrison. A right jolly time was spent.

A whist drive, in aid of St. Joseph's Roman Catholic church, was held at the home of Mr. and Mrs. Wilfrid Fortier on Wednesday evening, with a large crowd in attendance. On this occasion, ten tables of cards were at play, prizes being won in the following order: ladies' first, Mrs. E. D. Hagel; consolation, Mrs. J. Lohr; gentlemen's first, Denny Purdy; consolation, Melvin Baker.

Inspector Bremner was a visitor to the district schools this week.

At present we are enjoying a spell of lovely weather.

Miss Margaret Lemire returned to her home at Macleod on Saturday evening, after paying a visit of a few weeks with relatives here.

Another of Alberta's pioneers passed to the Great Beyond on Sunday night, in the person of Richard Coates. Mr. Coates was 88 years of age. He came from England to settle in the Cowley district in 1900, taking up a homestead on the river from three miles north of Cowley, where he took his young English bride in 1901, building up a home together and raising a family of three daughters. Mr. Coates carried on in mixed farming in a painstaking manner, specialized in dairying. His mortal remains were laid to rest in the Cowley cemetery on Wednesday afternoon, the funeral taking place from St. Aidan's Anglican church, with Rev. Mr. Jeffcott, of Pincher Creek, performing the last sad rites. On this occasion, the church was packed to standing with loved ones and sympathizing friends. Many floral tributes represented the esteem in which the deceased was held. The local Oddfellows attended and administered their last ritualistic rites at the graveside. Mr. Coates was predeceased by his daughter Rita some years ago. He is survived by his wife and two daughters, Mrs. Duffell (Elsie) at home, and Mrs. R. Shearer (Irene) at Blairmore, and several grandchildren.

One of the bishops who broadcast recently from 2LO ended his sermon: "I hope we shall all meet in heaven—I don't think." This sounds terrible and must have shocked those who heard it, but it happened to be the fault of the announcer, who failed to switch off before the bishop said an aside to the announcer, "I don't think I was too long."—Ex.

Blairmore again wins prominence in the news. In a motion filed in the provincial legislature, Hugh C. Farthing, K.C., conservative, Calgary, is asking for full information concerning a holiday proclaimed by the Blairmore school board last November 7th, on the anniversary of the Bolshevik revolution in Russia. He is asking for all correspondence, reports and other documents relating to the holiday. It is time the government took some action.

Harvey Murphy may boast of some of the great things he prophesied, but his silliest attempt was to belittle the Boy Scout movement. The Christian Science Monitor, which in itself is a big bit bigger than Murphy and his pet programme, has this to say: "America's 30,904 troops of Boy Scouts, with 6,000,000 members begin celebration of the silver jubilee of their organization. An address by President Roosevelt opens a commemorative season scheduling many functions leading up to a Washington jamboree in August, when 30,000 Scouts will stage the largest American encampment. From Melbourne, Australia, come enthusiastic reports of the great success of the World Jamboree held there by 10,000 Scouts from many nations—the world's youth, having one heart, will learn to speak out in a single tongue."

The working agreement between the Crow's Nest Pass Coal Company and the Fernie miners has been renewed for a two-year period. The action removes possibility of an industrial tie-up in the spring.

"The next thing now is a streamlined potato. Down in Rochester, New York, they have developed yellow, red and purple potatoes, and some with stripes of color, according to the Agricultural Department of the C.N.R. We presume these jazy potatoes are being developed for use in night clubs and other places where their bizarre coloring will blend with the decorations. Streamlined potatoes, we think, would go well for serving on streamlined trains.

He: "Would you marry a fool for his fortune?"

She: "Oh, but this is so sudden!"

The editor of a local district newspaper and his wife were on their way home from a Christmas party. Arriving home, she looked at him severely: "I'm ashamed of you," she said.

"But wh-wh-wh what have I done?" he asked.

"I wish you wouldn't be so thoughtless when you're dining out," she explained. He furrowed his brow, puzzled. "When Mrs. Brown asked you if you'd like a little more Christmas pudding, you told her that owing to tremendous pressure of space, you were reluctantly compelled to decline the offer," she told him.

An inspector was examining a class of boys in science and receiving few answers to his questions. He asked one in a rather facetious manner which drew an aside from a boy in the back row, "Silly ass!"

The inspector, seeing the boy's lips move, called to him encouragingly: "Speak up, my boy, you may be right!"—Smith's Weekly.

INCOME TAX RETURNS GOVERNMENT OF ALBERTA Important Notice

Income Tax Returns should be filed with the Superintendent of Income Tax, Qu'Appelle Building, Edmonton.

BEFORE MARCH 31st, 1935

Forms may be procured from any Provincial Government Office, or from any bank, or direct from the Superintendent of Income Tax, Edmonton.

All persons residing, employed, or carrying on business in Alberta, are liable to a tax on income, subject to the exemptions provided for in the Act.

Full information re exemptions and method of filing returns is contained on the forms themselves.

Further information will be furnished on application to

INCOME TAX BRANCH

Qu'Appelle Building, Edmonton

AVOID PENALTY BY FILING NOW!

HON. J. R. LOVE,

Provincial Treasurer

E. M. GUNDERSON,

Supt. of Income Tax.

Two hundred and fifty persons were drowned when the Chinese steamer Fu Lung capsized and sank off the rocky coast of Wuhoku.

This great array of lights was not extended to Hill Sixty. Well, a highway to that promontory was built by the town in 1934, and perhaps E. B. King that highway is to follow.

We were asked a few days ago why

● Perhaps there is no aspect of wine making so misunderstood as that of fortification, by which is meant the addition of grape spirit in the form of brandy to the juice of the grape itself. It has been asserted that the object is to make the wine stronger. That indeed is one of the effects, but the original purpose was far different.

● Shortly after the sudden popularity of port in England early in the eighteenth century, of which we shall tell you in another article, it was discovered that the wines of the Douro were tart and sour, as compared with the wines of the Minho though the Douro grapes themselves were much sweeter. The Douro wine trade was threatened with disaster when somebody had the rather odd idea that the very excess of sugar in the Douro grapes might be responsible. Investigation showed this to be the case, for the greater sugar content in the grapes hastened the process of fermentation, and made it altogether too rapid.

● To check this undue acceleration the expedient of adding brandy to the must was resorted to. The wine thus produced gained in sweetness but when young was much too fiery to be consumed with pleasure. As it matured, it acquired the desired flavor. As a matter of fact we suppose that nobody in England has ever tasted port wine in its absolute purity.

Beware The Danger Spots

The inauguration throughout Canada of new social services, and the extension of social services already existing, are policies to which it is now clear all political parties in Parliament are definitely committed. Since the beginning of the present century there has been a steady growth, not only in Canada but in all countries in the number and scope of these services of a social character, and it is now evident that the people of this Dominion are in favor of more and still larger and comprehensive services of this character.

This development is in line with modern trends and the new conception that all the people are responsible for the welfare of each individual citizen. We refer to this as a new conception, yet it is as old as civilization itself. Man is his brother's keeper and if and when man fails to discharge that responsibility to his fellowmen, then the very civilization which protects him will collapse. So it is that the great majority of people will be found to welcome the introduction and enlargement of a national programme of social services.

There are, however, one or two danger spots in connection with such a programme which the Canadian people will be well advised to recognize at the outset. These services are designed to be helpful to us as individuals and as a nation; let us therefore beware that they do not actually prove harmful.

The first danger to avoid is, that in our enthusiasm and commendable desire to provide social services, and to establish them upon a generous scale, we do not overdo it, and embark upon programmes which may prove to be beyond the financial capacity of the Canadian people to maintain. Social services such as old age pensions, mother's allowances, unemployment insurance, free medical services, etc., will cost an enormous amount of money annually. Some of these services are already costing the Federal and Provincial Governments many millions of dollars, but present expenditures are undoubtedly small in comparison with the cost of proposals now being advanced.

Each and every one of these social services can be provided and made possible by just one method, and that is taxation. That is, the community as a whole must through the payment of taxes provide the money which will be distributed through one social service or another to the people who are in need of such service. If fifty million dollars are required for, say the payment of old age pensions throughout Canada, then taxes which will yield fifty million in revenue to the government must be imposed and paid by the people. There is no other way. This fact must be recognized, together with the further fact that there is a limit beyond which people cannot pay taxes, and any social or other service which depends upon government taxes beyond that limit will find itself in difficulty.

Once established, experience has proven that these social services grow very rapidly and that expenditures largely increase. This experience indicates a second danger spot. It is this: So long as individual man and woman are required to look out for themselves and plan for their future, they will, as a rule, work, exercise some degree of thrift, and save against sickness and old age. In a word, self preservation will be one of the guiding rules of their life. But once it becomes an accepted and established fact that people will be provided for whether they are at work or not, that the community will care for them and all their ills if and when sick, and that the community will support them throughout their old age and bury them when they die, then there is grave danger that the incentive which is now the great driving force in our human nature will become less keen, weaken and gradually die.

One of the tragedies of this depression period is the loss of incentive and ambition by many people, and a willingness on their part to accept relief payments in lieu of effort and work on their part. There is a tendency on the part of some when offered employment to balance the offered wage against the established scale of relief payments, and to decide whether the wage plus work is any better than relief minus work.

So, in the development of all social services the greatest care must be exercised that in our desire to benefit and help our fellow citizens we do not set up systems which in actual operation will undermine their characters and prove actually harmful to them as individuals, and destructive of the morale and stamina of the race.

Silver Jubilee Celebration

His Majesty To Broadcast A Message To The Empire

His Majesty will broadcast a message to his subjects the empire over on the evening of May 6, it was announced officially in London.

This is the principal day of the great silver jubilee celebrations of His Majesty's accession to the throne. It was on May 6 that His Majesty succeeded to the throne, and the celebration will continue to June 20, two days before the anniversary of his coronation at Westminster abbey.

While celebrations will be held throughout the empire, the principal events in which the king will participate are a grand review of the fleet at Spithead, a military review at Aldershot, and a review of the Royal Air Force at Mildenhall aerodrome on June 20. In between will be ceremonial processions covering all the London district.

On May 6, the actual anniversary, the king and queen will attend a great thanksgiving service at St. Paul's cathedral.

Planning Tunnel Under Straits Of Gibraltar

Spanish Government Has Idea To Link Europe With Africa

The Spanish government is considering a vast public works program to help the jobless, which contemplates an outlay of about \$135,000,000, the principal enterprise being the construction of a Gibraltar tunnel linking Europe with Africa.

The tunnel under the Straits of Gibraltar is the subject of a special inquiry which has been in progress some time. It is contemplated that the subterranean route would be about 20 miles long and would plunge under the Mediterranean to the depth of 1,500 feet. Construction would be by means of a new type compressed-air caisson, permitting the excavation of the sea bottom to a depth of 1,000 feet.

Congress Demands Respect

Persons Laughing At Chilean Parliament Will Be Arrested

Laughing at the Chilean parliament is now a punishable offence. Chile's deputies were annoyed at the increasing fun which was being made of congress and their debates. They especially objected to remarks made by members of the public in the gallery and in the precincts of the parliament. At the request of the chamber of deputies, therefore, the speaker has given instructions to the police to arrest any person who is heard to "take in vain the name of the honorable congress."

Champion Bricklayer

Philip Lancaster, 24-year-old foreman in a brickyard at Hull, England, lays claim to the title of being the world's champion bricklayer. He laid 3,000 bricks in four hours, a record, he says. In the first hour he laid 908, a little better than 15 a minute.

W. N. U. 2086

Little Journeys In Science

COSMIC RAYS

(By Gordon H. Guest, M.A.)

Glass becomes negatively charged when rubbed with catskin, but positively charged when rubbed with silk. Also, a strip of celluloid becomes negatively charged when drawn between the fingers. In order to detect and measure the electric charges on any substance scientists have devised an instrument known as the electro-scope. A simple type of electro-scope consists of a bottle with a paraffin stopper, through which runs a piece of glass tubing. Passed through the glass tube is a piece of brass or copper wire from which are suspended two strips of gold-leaf. A ball made of tinfoil is attached to the other end of the wire and is, of course, outside the bottle just above the paraffin stopper. Whenever the ball is given either a negative or positive charge the leaves fly apart in proportion to the amount of the charge. A rubber comb rubbed on a cat becomes negatively charged and if the comb is placed on the tinfoil ball some of this charge is imparted to the electro-scope and the leaves will fly apart. Since the charge is negative, another negative charge will cause the leaves to spread still farther apart, whereas a positive charge will cause the leaves to fall together before again flying apart. In this way the kinds of charges may be determined. When even the best of electroscopes are charged it is observed that the gold leaves slowly come together again. This means that some electrically charged particles from the atmosphere are neutralizing the charges on the leaves. Scientists set out to discover what was causing this discharge of an electro-scope and found that it was due to certain rays which came to the earth from outer space. They are called cosmic rays.

Many attempts have been made to stop the natural leak or discharge of an electro-scope. These attempts have always failed despite the use of the most perfect insulators and the protection of the electro-scope by lead shields, several feet in thickness. These experiments suggested that there exists an unusually penetrating radiation of feeble intensity.

Scientists have carried electroscopes to points near the two poles of the earth, at the equator and at various other latitudes. Electroscopes and similar indicating and recording devices have been sent up into the air in sounding balloons to altitudes of over 20 miles, and have been carried to altitudes of 25,000 feet by airplanes in various localities and have been taken to high mountain peaks as well as to depths as great as 3,000 feet in lakes. All experiments show that the rays come from above the earth and so they have been called cosmic rays. Outstanding among the various investigators in this work are two American scientists, Millikan and Compton.

New Gold Strike

Sensational Discovery On The North Shore Of Lake Athabasca

Three aeroplanes are busy freighting crews, diamond drill equipment and supplies to what is hailed as a sensational new gold strike at Beaver Lodge, on the north shore of Lake Athabasca.

Already there are more than 200 men at the camp, hastily constructed, and more stakers are on their way. Ten dog teams recently left Fort Chipewyan for the scene of the discovery.

All reports say that Beaver Lodge is the greatest gold discovery in Canada in many years.

Scientists have found "regulators" of animal growth. Tests on salamanders give a clue as to why ears do not grow as big as hands.

There may be splinters on the ladder of success, but you don't notice them until you slide down.

Ancient Stronghold Found

Viking Guards Did Not Allow Women In Garrison

A 1000-year-old Viking stronghold never visited by women is the discovery of Dr. Holger Arbman, who has been excavating at Sweden's ancient capital, Birka. That the Viking guards forbade women to enter this garrison is inferred because no single scrap of a woman's ornaments or apparel has been found in the ruins. On the other hand, Dr. Arbman has unearthed remains of the men's arrowheads and many knives and animal bones left from the meals of the guardians.

A motor speed through space at about eight to forty-five miles per second.

MASS BUYING REPORT SAID TO BE VOLUMINOUS

Ottawa.—Compilation of a report which is expected to be voluminous, both in discussion of evidence and recommendations, occupied members of the royal commission on mass buying. Some time must elapse before the report is ready.

"We are only at the first section," declared Chairman W. W. Kennedy. Whether the House of Commons will receive the report through Hon. R. B. Hanson, minister of trade and commerce, in its completed form or by sections is engaging the commission's attention. It is not unlikely that to facilitate the government's program for the amelioration of certain ills the latter practice will be adopted. The first section is understood to deal with labor.

In this connection evidence adduced before both the parliamentary committee and the royal commission was overwhelming in its disclosure of distressing conditions prevailing in certain trades, particularly those in which women workers predominated.

It is anticipated the commission will urge closer check on these industries employing women to ensure proper observance of the minimum wage laws and recommend uniformity in these enactments. Also, the commission contemplates recommending establishment of minimum wage laws for male workers, coupling this with maximum working hours.

On mass buying the commission is confronted with a difficult situation. It is understood some commissioners are not actively convinced mass buying itself is an evil.

The report it is understood will be critical of labor policies of many chain store companies, declaring there to have been characterized by close control in the matter of wage costs, but by lack of sympathetic direction in the application of these wage policies to the condition of the workers involved. The excuse that such direction could safely be entrusted to the local management had been shown to be inadequate by conditions revealed to the commission.

The chain store management ought to have recognized from the start that abuses in such a system were inevitable, the report is understood to declare. The fact no steps were taken to change these circumstances is considered a dereliction of duty on the part of executives.

Imperial Press Conference

Reception Tendered by Former Premier of South Rhodesia
Bulawayo, South Africa.—Delegates to the Imperial conference arrived in Bulawayo from Kimberley, Sir Herbert Stanley, governor of Southern Rhodesia, accompanied by Lady Stanley, made a special trip from Salisbury, the capital to greet them.

They met the governor and other officials at a reception tendered by H. H. Moffat, former premier of Southern Rhodesia, and a nephew of David Livingstone, the noted explorer. The delegates were entertained at banquet at night.

Captures Wheat Prizes

Edmonton.—John D. Morris of Hardisty, captured two wheat trophies at the provincial seed fair when judges placed the registered and certified seed exhibits. He won the Bank of Commerce championship cup for best sample of milling wheat and the trophy for best sample of registered wheat, offered by the Alberta branch of the Canadian Seed Growers' Association.

Speed Reform Program

Ottawa.—Desire of the government to speed its reform program through parliament was seen in notice of motion by Prime Minister R. B. Bennett that he would ask the House of Commons to approve right of way for government legislation every Monday from February 15 till the end of the session. Monday ordinarily is private members' day.

May Run in East Kootenay

Ottawa.—It was understood generally here that Hon. H. H. Stevens, former minister of trade and commerce, would accept nomination for the next general election in East Kootenay, the seat he now represents in the House of Commons.

W. N. U. 2066

Establishes Farm School

Forty English Children To Be Sent To School On Vancouver Island

Montreal.—Forty English children, aged seven to nine, will come to Canada in May to form the nucleus of the Fairbridge farm school on Vancouver Island, Major M. F. Trew stated here.

Major Trew will be the headmaster of the new school which is sponsored by the Child Immigration Society of Great Britain to train English boys and girls to enter farm life in Canada. He passed through Montreal en route back to England from British Columbia.

The society, he said, had bought 1,000 acres of land on Vancouver Island and building would commence shortly. Through private subscription and co-operation of the British government the children will be trained on the largest farm-school of its kind ever attempted in Canada. It will be modeled after the Fairbridge farm school of Australia. Major Trew estimated when the school is in full operation 400 boys and girls will be in residence. They will be taken from English institutions and chosen by the London committee of the society. At the age of 16 they will be sent to farms in western Canada.

Must Ease Tax Burden

W. Sanford Evans Sees Taxpayers Becoming Bankrupt

Winnipeg.—Centralization of government in Canada had far exceeded the intentions of the fathers of confederation, declared W. Sanford Evans, Conservative leader, during debate on the throne speech in the Manitoba legislature.

Multiplicity of taxes was making taxpayers bankrupt, said Mr. Evans. The man in danger of losing his home for inability to pay the tax was still paying a wage tax, he said. He urged some steps by the government to ease the burden of taxation on the lower paid wage earners.

Mr. Evans spoke after W. J. Westwood (Lib. Prog., Roblin) and L. Christie (Lib. Prog., Cypress) respectively had moved and seconded the adoption of the address. The debate was adjourned by B. J. Farmer, newly-named Independent Labor party leader.

Flyers Finish Race

New Guinea Alirmen Rather Late In Reaching Melbourne

Melbourne, Australia.—Just 116 days after they took off from Milnebaul in the English bi-McMourne air derby, G. E. Hemsworth and R. Parer, New Guinea alirmen, roared across the finish line here, Feb. 18. Their belated arrival, nearly one-third of a year after the winners, was unheralded and uncheered.

The flyers took satisfaction, however, in the reflection that they had bettered one record—one they had set themselves. "We're a bit late," observed Parer, "but we've beaten our previous record by four months."

Italo-Ethiopian Trouble

Peaceful Settlement of Border Dispute Is Expected

Rome.—Peaceful settlement of the turbulent Italo-Ethiopian border dispute in East Africa was believed by official circles in Rome to be in the offing. According to the Havas News Agency, an agreement which circulated in Rome went so far as to say that a partial accord had been reached at Addis Ababa, as a result of which Italian and Ethiopian forces had evacuated the disputed zone in the vicinity of Ualul, near the border between Italian Somaliland and Ethiopia.

Ease Economic War

Irish Free State Makes Representations To Britain

Dublin.—A step in the direction of easing the economic "war" between the United Kingdom and the Irish Free State was revealed when President Eamon de Valera announced in the dail that representations had been made to Britain.

He referred solely to economic matters, saying the British government had been acquainted with the Irish belief that in view of the recent coal-and-cattle commercial exchange, there was a good cause for further negotiations.

Seek Cotton Substitute

Ottawa.—Officials of the Dominion experimental farm revealed they have supplied samples of Canadian flax for experiments being conducted in Manchester, England, in an effort to find a suitable substitute for cotton in textile manufacture.

For Churchill Constituency

Hon. T. A. Crerar Is Nominated As Liberal Candidate

The Pan, Man.—Hon. T. A. Crerar, former federal cabinet minister, was nominated Liberal candidate for Churchill constituency in the forthcoming federal elections.

Nomination of Mr. Crerar came after a ballot with Dr. Daniel Baldwin, Benito, Man. Both Mr. Crerar and Dr. Baldwin spoke briefly before the vote was taken.

Mr. Crerar's first federal cabinet post was under Sir Robert Borden, prime minister of the Union government during the war-time years. He was made minister of agriculture in the administration in 1917.

He led the Progressive party a few years later, but in 1925 retired from politics.

In the cabinet shuffle of 1929 when Rt. Hon. W. L. Mackenzie King headed the Liberal administration, Mr. Crerar was summoned from private life and took the portfolio of railways.

Defeated in Brandon constituency in the general elections of 1930, Mr. Crerar retired again to private life.

SUGGEST MEANS TO LESSEN DEATH TOLL ON HIGHWAYS

Ottawa.—Longer jail terms for negligent drivers who kill and maim on the public highways will not stop the mounting toll of automobile crashes, Minister of Justice Hugh Guthrie advised the House of Commons. Urged by T. L. Church (Cons., Toronto East) to stiffen the penalties for drivers responsible for highway slaughters, he said education was the only possible means of inducing safe driving.

For two hours the house discussed Canada's mounting toll of highway accidents, with the Toronto member finally withdrawing his resolution and suggesting the government institute a broad investigation so the next parliament may have sufficient material to warrant recasting the laws.

Suggestions came from all sides. They included longer jail terms, elimination of level crossings, cancellation of drivers' permits for long periods, and inclusion of women on juries trying highway cases.

"Everybody seems to have the speed bug except the House of Commons," exclaimed Toronto's wartime mayor, claiming Canada was 20 years behind the time in highway legislation. He urged a general stiffening of penalties and possibly the adoption of New York state's homicide law for highway killings.

A general survey should be made with the co-operation of the provinces and possibly a new department of safety established at Ottawa to lead the fight.

Only by a process of education of the public, by teaching motorists to observe the courtesy of the road could any improvement take place, Mr. Guthrie believed. Increases in accidents occurred in other countries despite imposition of stricter penalties and changes in the speed limits.

Mr. Church had not suggested any definite proposals for amendments to the Criminal code.

DR. W. V. LONGLEY

Director of Extension and Professor of Farm Economics at the Nova Scotia Agricultural College, who has been elected president of the Canadian Council on Boys' and Girls' Club Work, an organization with a total membership of 27,000 in 1,544 clubs throughout Canada.

Would Lead To Revolution

Withdrawal Of Relief Would Cause Trouble In Canada, Says Mayor McGeer

Vancouver.—Withdrawal of relief allowances by the Dominion government would lead to revolution in Canada, Mayor G. G. McGeer declared during a discussion of means to repair storm damage in Stanley park, Vancouver.

Proposals are that the work be done by those on relief lists. Ald. W. W. Smith drew attention to the fact that the present relief agreement between British Columbia and the Dominion terminates March 31.

"And there is no certainty that the government will continue relief after that date," he added.

"If it doesn't, then there will be a revolution in Canada," said Mayor McGeer.

Sees Japanese Menace

California Representative Says Japan Army Reserves Are On Pacific Coast

Washington.—Representative John Dockweiler, California Democrat, told the house of representatives military committee that 25,000 trained Japanese army reserves in the Pacific coast state stood ready to take up arms. Packed into Los Angeles harbor, he added, were 150 Japanese fishing boats with a cruising range of thousands of miles.

"At least they appear to be fishing boats," he said significantly. Here the chairman stopped him with word that such testimony should be given in secret session. But Dockweiler replied he intended to make the same assertions on the house floor.

Vice-Regal Tour Of West

Edmonton.—His Excellency, the Governor-General, and Lady Bessborough, will be in Edmonton from 6:30 a.m. March 22 to 7 a.m., on March 23, during their farewell tour of the west, according to an announcement made from the office of Hon. W. L. Walsh, lieutenant-governor of Alberta. The vice-regal party will be in Calgary from 4:30 p.m., April 11 to 5:20 p.m., April 12, as they travel east again from the coast.

Wreck Of U.S. Dirigible

Cause Of Mid-Air Collapse Remains A Mystery

San Francisco.—How the United States naval dirigible Macon rusted and plunged crazily for 35 minutes before falling and sinking to the bottom of the Pacific was revealed in the stories of its survivors.

Underlying cause of the mid-air collapse remained undetermined. Commander H. V. Wiley and others who came through safely, revealed there had been a sudden lurch at the outset, after which the great sky cruiser soared upward, out of control, then settled haphazardly to a grave in the deep.

Outwardly light-hearted, the 81 surviving officers and men who stuck with the ship until she hit the water and then got away in rubber lifeboats, sang as they came ashore here. Search was abandoned for the two missing members of the crew at the spot where the airship went down, 13 miles off Point San, Calif., 110 miles south of here.

Loss of the \$2,450,000 Macon left the United States navy without a dirigible.

Hints the Macon's end, similar to that of the dirigibles Akron and Shenandoah, might mean discontinuance, or at least a curtailment, of naval development along this line were seen in Washington developments.

Honeymoon Tour

Prince George's Bride Has Slight Accident On Arrival At San Juan

San Juan, Puerto Rico.—The Duke and Duchess of Kent arrived at San Juan's airport from Port of Spain, Trinidad, in their honeymoon tour of the West Indies on a slight accident to the duchess marred the arrival.

While the British cruiser Dragon, anchored a mile away, boomed a salute of 21 guns and flag-decked craft in the harbor whistled shrill welcomes, the royal newly-weds stepped down to be greeted by Governor Blanton Winslip. It was the first time they had touched United States territory in their tour.

Prince George's bride, the former Princess Marina of Greece, turned her smile while stepping on a float at the airport from the amphibian plane but was not badly hurt.

HAUPTMANN IS SENTENCED TO DIE IN ELECTRIC CHAIR

Flemington, N.J.—Bruno Richard Hauptmann was condemned to the electric chair by the jury that tried him for the kidnap-murder of Baby Lindbergh.

White and unshaven, the German carpenter tottered slightly as he stood between his guards and heard himself ordered to "die in the electric chair."

He was sentenced to die in the week of March 18, but an almost certain appeal to the New Jersey court of appeals and errors would stay his execution. The high court is not likely to pass upon the appeal until late in May.

The jury of eight men and four women spent 11 hours and six minutes in a bare back room of the old court house where Hauptmann had been on trial since Jan. 2 before they reached their verdict.

"We find the defendant, Bruno Richard Hauptmann, guilty of murder in the first degree," intoned Foreman Charles Walton, Sr., in the deathly quiet of the littered, smoke-filled courtroom.

Anna Hauptmann, tears rolling down her cheeks as her husband went silently back to his cell, cried: "There is nothing left for me."

But she dried her eyes as she pushed through the thronged court room and left by a rear door.

"I am not afraid," she said. "I still hope."

Pollled individually at the instance of Edward J. Reilly, chief of the defence counsel, the jurors affirmed the verdict in quavering voices.

Relly announced soon after the verdict was returned that he would file an appeal and carry it "to the highest court in the country."

"Although the jury has rendered a verdict on the facts in the case, we still believe that a great many errors in law have been committed, which will mean ultimately the reversal of this judgment," he said.

On the other hand, Wilentz said: "The tremendous responsibility imposed upon Hunterdon county was shouldered without flinching. The nation is indebted to these courageous men and women."

CENSURE MOTION IN BRITISH HOUSE WAS DEFEATED

London.—A determined Labor effort to have the House of Commons censure Prime Minister Ramsay MacDonald's government for its unemployment relief policies went down to defeat after a lengthy and sometimes bitter debate.

The vote, coming after charges and counter-charges had been hurled back and forth as the prime minister fought back stoutly at his adversaries, was 374 to 68.

Mr. MacDonald, striking out in reply to his critics in the Labor and Liberal opposition ranks, charged the Labor party with "making political capital out of the unemployed."

Neville Chamberlain, chancellor of the exchequer, wound up the debate by declaring the government has increased trade and would continue to do so by its own methods.

"The increase in our exports is remarkable," he told the house. "There is no country in the world, unless it be Japan, which can show a similar increase."

Mr. MacDonald, first one to defend the government against attacks from the Labor and Liberal opposition parties, was given a rough heckling by his former colleagues of the Labor party and twice the Speaker had to intervene before he could continue.

George Lansbury, the Labor leader, moved the censure motion, charging the government had forfeited the confidence of the country by its lack of any policy for dealing with unemployment and for its "bungling" methods on relief. Sir Herbert Samuel, Liberal opposition leader, moved an amendment calling for lowering of tariff barriers as the first step towards building up employment.

Prime Minister MacDonald asserted another financial crisis like that of 1931 would result if Labor got into power again and unemployment would be increased, instead of decreasing.

The Laborites cheered when Mr. Lansbury opened the debate with the declaration, "we do not want anyone to say we are charging the government with dishonorable conduct in the ordinary sense of the word, but we are charging it with gross incompetence."

Desire For Reconciliation

Thomas Says Real Peace Desired Between Britain And Free State

London.—J. H. Thomas, Dominions' secretary, expressed a "sincere and genuine desire for reconciliation and real peace" between Great Britain and the Irish Free State. At the same time he said: "The two questions, sanctity of agreements and membership in the British commonwealth of nations, are and always must be fundamental to any settlement of the Irish difficulty."

Addressing the Constitutional club, Thomas said he had no intention of going into the political differences of the past. An overwhelming majority of the British people, he believed, sincerely desired reconciliation and real peace.

Geographically the Free State was so situated that Britain was the market upon which it had to depend, he said.

The question of whether or not the Free State desired to remain in the empire only tended to disturb existing relations between the two countries, said the Dominions' secretary. If Ireland made clear she desired to remain in the empire and to play her part in it, "then how happy we would all be in this year." (The king's jubilee celebrations take place in May).

Must Make Concessions

Yarmouth, N.S.—Since Canada achieved an independent status in world affairs following the war, she can expect to be forced to make concessions as well as demands when imperial bodies meet. Prof. M. C. Dawson of the University of Saskatchewan said while addressing a local service club.

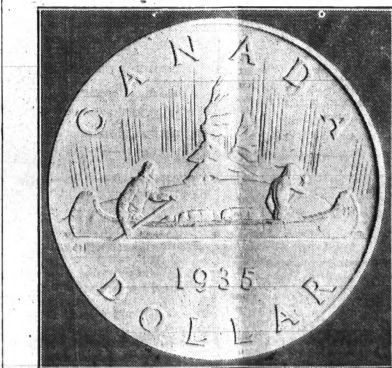

Wants Tariff Cut

Ottawa.—A general reduction of tariffs on farm implements and primary machinery was urged in the House of Commons by Hon. Charles Stewart, former minister of the interior.

Alberta Dairymen's Association

Calgary.—C. W. Buxnell, Edmonton, was elected president of the Alberta Dairymen's Association at the close of the annual convention here. Fred Reynolds, Calgary, is secretary.

CANADA'S FIRST SILVER DOLLAR

Here is a picture of the reverse side of Canada's first silver dollar, which will be ready for circulation on May 6th, the twenty-fifth anniversary of the accession of King George VI. The design is a canoe laden with pelts, paddled by an Indian and a "voyageur," passing through a rocky laet on which are two jack-pines. The word "Canada" is set above with northern lights, and below, the word "dollar" appears with the year "1935". The obverse side of the dollar will carry a crowned effigy of His Majesty, with the inscription, "Georgius V. Rex Imperator, Anno Regni XXV." The design was executed by Emanuel Hahn, R.C.A.

A son arrived to Mr. and Mrs. Rene Steiner the early part of the week.

Alberta Oddfellows will meet in annual session at Calgary during the week of March 11th to 15th.

Adam Begun, of Nordegg, has been arrested in connection with the slaying of Stanley Powlich at Nordegg on January the 26th.

Drumheller K.P.s celebrated the seventieth anniversary of the founding of the Pythian Order on Tuesday evening of this week.

Mrs. W. Adam and family and Mrs. Instone and daughter Freda, of Hillcrest, were visitors to Lethbridge during the week end.

D. J. McNeill has returned from Princeton University, where he was successful in his examination for the degree of doctor of geology.

In honor of St. Patrick, Coleman Elks will hold a dance in the Coleman community hall on the night of Monday, March the 18th.

W. Whitworth, James A. Webb and S. H. Elliott were elected to the town council of Macleod. Defeated candidates were R. C. Jessup, J. Swinerton, W. J. Knox and C. W. Stevens.

James Whannell, aged 21, went to his death on the scaffold at Fort Saskatchewan jail yesterday morning for the slaying last June of Matthias Schmidt, a Peace River homesteader.

We understand that Mrs. Sherring did not go to Edmonton with the Blaimore delegation. It is a pity, for her influence could have added so much to that of the Blaimore Union representatives.

We were willing to give away one of our seven toothjacks if the visit of two councillors to Edmonton resulted in sufficient returns to meet the expense. That money, too, would have helped to feed the so-called "starving" unemployed.

Drumheller Oddfellows on Monday night observed the twenty-first anniversary of the founding of their lodge. The founding of the Order in the North American continent was also remembered at this time by paying homage to the late founder, Thomas Wilde.

After occupying a residence for seven months without paying rent, a well known local citizen pulled out into other quarters a few days ago, and before moving damaged water and light connections. This is part of the class on relief, whom we are taxed to help support.

The Dominion Wire Rope Co., Limited, a foreign company, has been registered in this province. The head office of the company outside the province is at Montreal, and within the province at Blaimore. The attorney of the company is C. J. Tongkins, agent, Blaimore.

H. Davidson, president of the International Coal & Coke Co., Ltd., and Lorne Campbell, president of McGillivray Creek Coal & Coke Co., Ltd., have been in Coleman this week in connection with their companies' business. Prospects for the year are reported considerably improved.

Last week end, the Reds went to the extent of trying to get local business people to subscribe to and sign messages to Edmonton or Ottawa in sympathy with some movement of which such business people were not in the least aware. And then threats of boycott followed, which practically transforms the movement into one of force, not persuasion. The joke of the great matter is that those same business people have done more for these same Reds than the Reds have ever done for themselves.

Coyotes are destroying hundreds of deer in the Kootenay district.

Hauptmann was convict No. 17,400 in New Jersey state prison.

Miss Hilda Mundy, of Regina, arrived by last night's train on a visit to Mr. and Mrs. Frank A. Beebe.

Thirty years ago, a drilling outfit was unloaded at Pincher Station for the purpose of drilling for oil in the South Kootenay Pass.

Mrs. Daniel McLellan died at Coleman on Wednesday night of last week, leaving a husband and five young children.

Blaimore's relief deputation to Edmonton, Messrs. E. Morgan and J. Packer, returned to town on Tuesday night.

Lord Bledisloe, former governor-general of New Zealand, is mentioned as successor to Lord Bessborough as governor-general of Canada.

A nineteen-day strike at Springhill represented a direct loss to the miners of \$150,000. With the cessation of hostilities, thoughts of non-miners run to the futility and expense of strikes.

Expressing high appreciation of the work of the Boy Scout movement in character building, Prime Minister R. B. Bennett on Monday donated \$5,000 toward the expansion programme of the movement in Southern Alberta. The donation will be in the form of five annual payments of \$1,000, the first of which was received in Calgary Monday.

REPRESENTATIVE WANTED

LIFE INSURANCE BUSINESS is definitely on the up grade, and as we are not represented in Blaimore we want a representative, either lady or gentleman, to represent us in Blaimore and district. Our Company is one of the outstanding companies of Canada and applicants must have a good education and be highly regarded in their community. Apply by letter giving age and past business experience to Box E, Blaimore Enterprise.

NOW more than ever... The Best Engineered**LOW PRICE CAR**

Engineering leadership has been the cornerstone of Plymouth's great success and on engineering leadership Plymouth will rise to new heights in 1935.

It's the most beautiful car that Plymouth ever built. It has the finest interior trim. It has a thrilling new style which buyers will find irresistible. It is distinctive!

It is the largest of all Plymouths—wider than the 1934 De Luxe; longer—189 inches from bumper to bumper. The floor is lower, head room is greater. Rear seat leg room is greater than last year's. From the outside it's a big solid car; inside—spacious, roomy, luxurious!

It has the most powerful engine Plymouth ever offered—82 horse-power without change of bore or stroke! The same engine with revolutionary new developments—amazing new fuel economy, new oil economy, new DURABILITY that the public will appreciate.

You can feel confident that with these great features and the many new developments the 1935 Plymouth is more than ever the "Best Engineered Low Price Car!"

New Cars are Now on Display in Our Showroom and also at the Motordrome, Coleman
